Do Already**

*Leave it to AirAccess
And Security is a Breeze*

A smarter and safer business solution

Stay in touch
and in control,
from anywhere

Door Openings,
Lockdown, Alarms –
Get text alerts straight
to your phone, as
events happen

Easy and convenient fluid access control and commercial security

For added peace of mind

It's got an Easy App. It'll let you and your staff in and out, using your phone, and no ID, or with your current IDs if you like.

It's Security that's Easier on You

Did someone forget to lock the door at closing? No, you don't have to go back. No, there's no more key hassles: You can lock a door or lockdown all doors remotely, or open just one for that unattended nighttime delivery.

It's Hosted for you, so you don't have to have a big IT Department or Security Personnel onsite. We'll manage all remotely — We can even handle the staffs' credentials & updates for you.

It's Cellular, it won't need to go on the Company network, through firewalls or bog anything down.

It's Cloud-based, so it's always updated to the latest & greatest, without your lifting a finger. No annual software upgrades or licenses. No servers, drivers or equipment.

It's Neatly wireless / No downtime -

So whether we add new access control locks a door at a time, or the usual ID-Card Readers you've seen, there's virtually no wires, and it's quick and easy to install. No muss, no fuss to contend with.

It'll keep you Connected with easy text messages notifications 24/7, on events you want to know about or alarming ones you and managers need to see.

It's very safe with Real-Time Monitoring, you can even have our office dispatch the authorities for you at any hint of trouble (as well as notifying you).

Low-Cost Easy-to-Afford Monthly Plan

Eliminate the need for keys & IDs with mobile credentials

*Plus, stay informed with Text Alerts
for the events you choose*

Stay in touch and in control, anywhere you go with the AirAccess Mobile App. It offers a contactless solution, with no keys, ID cards or badges to carry. Plus, get customized Text Message Alerts in real-time on any smart device 24/7, plus optional central station monitoring & emergency dispatch.

Be informed and in control from anywhere

- **Get Text Message Alerts** on any alarming event, in real-time (sent to you &/or those you want in the loop)
- **Manage & control doors**, and initiate a lockdown in seconds from any smart device
- **Add and delete cards or users** (or we can do it for you)
- **On-Demand AirAccess Reports**, e.g., employee comings and goings, by user, date and time; invalid ID attempts, forced doors, alarm events, etc.

Keep in Touch Online or From Any Mobile Device

Mobile Credentials

Pickup the pace, with mobile credentials, there's no more wasting time searching for lost keys or rekeying - The phone is the key on our sleekest designer access locks or #1-Rated ruggedized, vandal-proof ones. AirAccess allows for just a few, or thousands of users, that can each be easily managed with the AirAccess Mobile App.

Keep All Secure & Protected 24/7
*Get the fastest possible response
using top cellular communications*

We'll keep your business, staff, & customers safe with real-time monitoring, using today's latest cellular technology, to make sure you get the help you need in any emergency, quickly and reliably.

"With multiple locations, I'm always busy, so not having to worry about security or updating employee IDs means less stress for me. AirAccess is a quick, easy solution!"
